Forecast For Highland & Eilean Siar
Issued by Met Office Aberdeen
at 0400 on Tuesday 30 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain, heavier in the west, strong winds easing later.

Today:
Cloudy with rain, heaviest and most persistent again across the western Northwest Highlands. Drier, although patchy light rain from time to time, somewhat brighter and mild weather in the east. Southwesterly winds strong in the morning but easing later. Maximum temperature 13 deg C (55 deg F).

Tonight:
Cloudy with rain continuing but beginning to clear the far north of Scotland and the Hebrides by dawn. Winds strengthening for a time again around dawn, especially strong for Hebrides. Minimum temperature 5 deg C (41 deg F).

Wednesday:
Outbreaks of rain, with hill snow, on Wednesday morning but becoming drier and brighter from north in afternoon. Feeling fresher and winds easing too. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:
A lot of drier and brighter weather for the the second part of the week but feeling colder, with overnight frosts, but largely dry with sunny spells and light winds.
